DID YOU KNOW?

MICRONEEDLING Allows for a controlled activation of the skin's self repair mechanism by creating micro injuries to the skin, therefore stimulating your skin's own collagen production to reduce appearance of fine lines, wrinkles, stretchmarks, skin laxity as well as scarring.

PLASMAPEN Achieved by plume of ionized gas penetrating the papillary layer of skin to stimulate fibroblasts without spreading unwanted heat to surrounding areas. Used in difficult to treat areas like upper and lower eyelids, turkey neck, loose tummy and arm skin, smoker's lines & inner thighs.
